

DEVELOPMENT OPPORTUNITY FOR MANAGERS AND LEADERS OF TMOs

What is Action Learning ?

This is an exciting learning tool that can support you to improve your own and your organisation's performance. NewmanFrancis is bringing together chief officers from TMO's and other tenant led organisations to create Action Learning sets.

These Action Learning sets will meet regularly with an experienced Action Learning facilitator to address work challenges, improve performance, share learning, exchange best practice, and deal with strategic issues. With your peers we will help you generate innovative and fresh ideas that will improve your performance and strengthen your organisation.

What benefits can Action Learning bring?

Leaders learn from other leaders

Action Learning enables senior officers, managers and leaders at the same level to come together across organisations to critically reflect and create solutions relating to real life, work challenges.

Cross fertilisation of skills and ideas

Action Learning provides a supportive and collaborative environment where innovative ideas can be cultivated tested and developed.

The creation of a learning support network

Action Learning creates a self sustaining learning environment where proactive ongoing learning is made possible by utilizing the experience, knowledge and skills of the people within the Action Learning set.

Would you like to test it out?

NewmanFrancis is holding free introduction seminars where you can find out more about Action Learning and experience an Action Learning Set. Introduction seminars will be held in March and April 2011.

For more details and to reserve a free place on an Action Learning introduction seminar email Mekor Newman at mekor@newmanfrancis.org or leave a message on 020 8697 1079. Spaces are limited.
